

## 7 ideas for saving energy

1. Switch off the TV when nobody is watching it.

2. While cooking, use the hot plate that exactly matches the size of the pan.

3. Replace all the electric lamps with LED lamps.

4. If possible, install a photovoltaic panel.

5. Do not leave the lights on when you don't use them.

6. Use shorter washing program on lower temperature.

7. Wash the dishes with tepid water instead of warmer one.
